**Threat Alert Notification- Threat Actor targeting the UAE digital infrastructure**  
Tracking #:432315647  
Date:23-02-2024

THE INFORMATION CONTAINED WITHIN IS THE PROPERTY OF THE CYBER SECURITY COUNCIL OF THE UNITED ARAB EMIRATES GOVERNMENT AND IS TO BE USED EXCLUSIVELY FOR INTELLIGENCE PURPOSES. IT MAY NOT BE USED IN ANY LEGAL OR PUBLIC MATTER WITHOUT THE EXPLICIT APPROVAL OF THE CYBER SECURITY COUNCIL

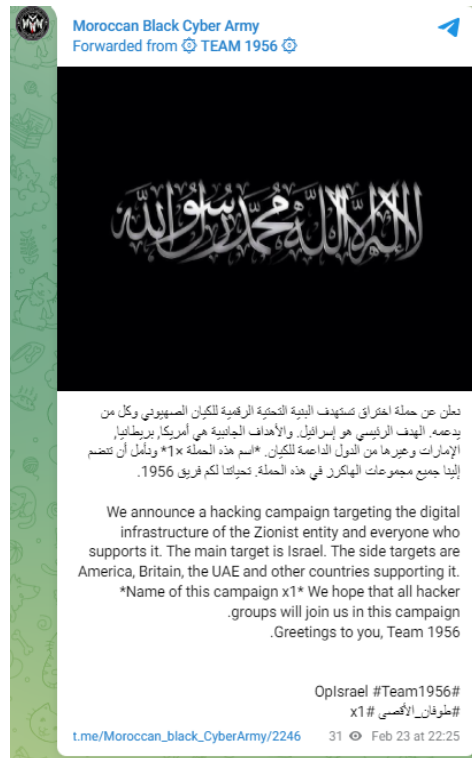

## EXECUTIVE SUMMARY:

The UAE Cyber Security Council has observed a threat actor claiming that they are targeting the UAE digital infrastructure. While the credibility and specific methods of the threat are unclear, it's crucial for entities to take proactive measures.

## TECHNICAL DETAILS:

Threat Intelligence was notified of a Telegram post where the threat actor named “Moroccan black Cyber Army” announced that they are targeting the UAE digital infrastructure.

## RECOMMENDATIONS:

- Remain vigilant and attentive to any unusual events or actions that may indicate malicious intent.
- Consider anti-DDoS solutions from ISPs or security vendors, if already subscribed then verify the anti-DDoS configuration.
- Notify immediately if any unusual or concerning findings are discovered.
- Implement strong authentication methods, such as multi-factor authentication (MFA), for all critical systems and applications.
- Ensure that all software, operating systems, and security applications are up to date with the latest patches and updates.

- Monitor network traffic for unusual or suspicious activities using intrusion detection systems (IDS) and intrusion prevention systems (IPS).

The UAE Cyber Security Council extends its appreciation for the continued collaboration.
