EXECUTIVE SUMMARY:

The UAE Cyber Security Council has observed Microsoft recently released security updates to patch multiple vulnerabilities in the Edge browser.

TECHNICAL DETAILS:

On March 14, 2024, Microsoft released security updates to address multiple vulnerabilities in Microsoft Edge browser. These vulnerabilities could potentially allow attackers to bypass security features or spoof legitimate websites on affected systems.

The following specific vulnerabilities are addressed in this update:

- **CVE-2024-26167:** Microsoft Edge for Android Spoofing Vulnerability
- **CVE-2024-26163:** Microsoft Edge (Chromium-based) Security Feature Bypass Vulnerability
- **CVE-2024-26246:** Microsoft Edge (Chromium-based) Security Feature Bypass Vulnerability

Fixed Versions:

Microsoft Edge Stable Channel (Version 122.0.2365.92)

RECOMMENDATIONS:

The UAE Cyber Security Council recommends to update the Microsoft Edge browser to the latest version.

Kindly circulate this information to your subsidiaries and partners as well as share with us any relevant information and findings.

The UAE Cyber Security Council extends its appreciation for the continued collaboration.
