EXECUTIVE SUMMARY:

The UAE Cyber Security Council has observed that Adobe recently released security updates to patch multiple vulnerabilities in its products.

TECHNICAL DETAILS:

On February 13, 2024, Adobe released security updates for several of its products to address vulnerabilities that could potentially allow attackers to take control of affected systems, steal sensitive information, or cause other damage.

Successful exploitation of these vulnerabilities could lead to code execution, security feature bypass, application denial-of-service attacks, and/or memory leaks on affected systems.

Vulnerabilities Details:
