3.7 Expenditure Based Capital Minimum

3.7.1 An Authorised Person, other than one that has a Financial Services Permission to carry out the Regulated Activity of Providing Third Party Services, must calculate its Expenditure Based Capital Minimum as:

(a) in the case of an Authorised Person which holds Client Assets or Relevant Money or Insurance Money, 18/52nds;

(b) in the case of an Authorised Person in Category 3B or 3C which does not hold Client Assets or Relevant Money or Insurance Money, 13/52nds; or

(c) in the case of an Authorised Person in Category 4, which does not hold Insurance Money, 6/52nds;

of the Annual Audited Expenditure, calculated in accordance with Rule 3.7.2.

6 OPERATIONAL RISK

6.12 Professional indemnity insurance

6.12.2 An Authorised Person must:

(a) subject to Rule 6.12A, take out and maintain professional indemnity insurance cover appropriate to the nature, size, complexity and risk profile of the Authorised Person's business;

(b) at least annually, provide the Regulator with a copy of the professional indemnity insurance cover in (a) covering the following 12 month period and be able to demonstrate its adequacy in relation to the nature, size, complexity and risk profile of the Authorised Person’s business; and

(c) notify the Regulator of any material changes to the cover in (a), including the level of cover, its renewal or termination.

6.12A Professional indemnity insurance for Third Party Providers

**Minimum Coverage for Third Party Providers**

6.12A.1 A Third Party Provider must maintain at all times a minimum professional indemnity insurance coverage of at least US$150,000.

**Transaction Limits**

6.12A.2 A Third Party Provider must ensure that the total value of all Third Party Transactions in the previous 30 calendar days does not exceed its remaining professional indemnity insurance cover.

6.12A.3 The value of a Third Party Transaction must be calculated as:

(a) where the Third Party Transaction leads to a Payment Transaction, the value of the Payment Transaction; or

(b) US$1.

6.12A.4 A Third Party Provider must calculate the value of its remaining professional indemnity insurance coverage by subtracting the value of any unsettled claims made against its professional indemnity insurance from the total value of its professional indemnity insurance.

**Guidance**

1. A Third Party Provider’s risk profile is that of a financial services firm and not of a software development firm, notwithstanding that software is a key component of a Third Party Provider’s business model.

2. A Third Party Provider is expected to manage the size and volume of its Third Party Transactions within its remaining professional indemnity insurance cover. Such management could take place through imposing limits on the number or value of transactions.

3. A Third Party Provider should review the adequacy of its professional indemnity insurance cover from time to time to determine whether, based on its projected number or value of transactions, its should increase the value of its professional indemnity insurance cover.
