ADGM - INTRODUCING A CALIBRATED VENTURE CAPITAL FUND MANAGER FRAMEWORK IN THE REGION

The ADGM Investment Funds Regime offers excellent flexibility for fund managers to structure a wide variety of funds, including Venture Capital (VC) Funds

Eligibility Criteria

In order to benefit from the Venture Capital Fund Manager framework applicants will need to be able to demonstrate that the following criteria are, and will continue to be, met in respect of each fund that it manages:

- Invests in the equity share capital of unlisted, early-stage companies
- Has a closed-ended structure
- Offered only by way of Private Placement to Professional Investors
- Subscription is limited to USD 100 million unless otherwise agreed with the Regulator
- Established in ADGM as an Exempt Fund or a Qualified Investor Fund (QIF)

ADGM’s Financial Services Regulatory Authority (FSRA) has created a proportionate, risk-based regulatory framework for VC Fund Managers that streamlines the applicable regulatory requirements whilst applying the necessary regulatory safeguards to ensure that they operate in a safe and sound manner.

VC FUNDS:

- Seek private equity stakes in start-ups or young, small or medium enterprises (Early Stage Entities)
- Exhibit certain characteristics that have different risk profiles when compared to other types of investment funds – generally posing less systemic and contagion risk
- Invest in small ventures that are not traded publicly
- Raise funding from professional investors with high levels of financial sophistication and resource
- VC Fund Managers invest own funds alongside investors, thus aligning their interests

ADGM provides the following framework for eligible VC Fund Managers:
